All about Bob & Bill

By 5D Alfred Liu Ho Nam

I would like to talk about my good friends, Bob and Bill. They are my neighbours. Bob is a diligent guy. He always does his homework and does really well in them. He has big eyes, a small nose, and short hair. He loves table tennis.

Bill, on the other hand, is a kind-hearted and positive person. He always feeds stray animals. Bill even helps his brother with his homework, but it is hilarious how he confidently gives the wrong answers at times. He loves badminton and practises playing it every Saturday. We always play video games at my house or play table tennis at the sports club.

Once, Bill invited all of us to the zoo. We saw many animals such as zebras, tigers, lions, alligators, and giant pandas. They are so cute. I like my best friends a lot.

All about Elsa & Kelly

By 5C Chu On Yi

I am going to tell you about my best friends, Elsa and Kelly. Both of my friends are quite tall. Kelly is a brave person, while Elsa is one of the most kind-hearted people I know.

All three of us love to draw. Elsa loves playing the mobile game, Eggy Party. Kelly and I share similar hobbies as we both like playing computer games, Minecraft and Roblox. Fun fact about Kelly and I, we both practise Tae Kwon Do as well! Whenever we go for training, Elsa usually plays Eggy Party to pass the time.

Once my family ran into Elsa's family in Chang Long Zoo in China and played with Capybara. We also went around Shenzhen too! As for Kelly, our families went to the beach and it was quite fun! I always enjoy playing with my friends.

ALL ABOUT JASON & SAMUEL

By 5A Jaden Kan Ngai Yin

Jason and Samuel are my best friends. Jason is good at Mathematics and playing football. Samuel is good at playing video games, managing money, and playing table tennis.

I usually play video games with them at my house. We also go to the beach to play with beach balls and swim together. Samuel is very silly and screams nonsensical things every day. Jason is kind of aggressive and playfully hits guys like me in the ribs every day, but he makes up for it by helping me out in Maths. I help out Jason in turn by helping him out with his English! He also helps me get better in a game called "Blox Fruits." It is a video game wherein one can get fruits and they give the player magical power. We all play football together in our PE lessons. One hilarious thing that Samuel does is that he pretends to be a soldier at times. He marches around saying "1, 2, 3, 4" every day and it makes us laugh a lot.

All about Tony & Jack

By 5B Rio Kwok Hiu Chun

I would like to talk about my good friends, Tony and Jack. They are my classmates this year. Tony is the most popular student in our class. He is a good-looking and intelligent boy. He is good at Maths, Chinese, General Studies, Computer, and PE.

Jack is the most helpful student in our class. He likes playing computer games. He also happens to be quite talkative. He always chats with his other friends, particularly during Math lessons.

The three of us usually play Roblox together after we're done with school and our homework. Sometimes, Tony or Jack will help me out with Chinese and Maths assignments, while I help them with English homework. They're quite bad at English, you see.

There was that one time Tony invited Jack and me to play Roblox "Bedwars." I did not know how to play it, but luckily my good friends taught me how to play it. After having a fun time playing the game, we had lunch at a seafood restaurant. We ate happily and chatted for a long time. I hope we can remain good friends even as we get older together.

All about Macy & Cindy

By 5B Renne Pang Tsz Shan

I would like to talk about Macy and Cindy. Both of them are good friends of mine! Macy is a prefect at school. I think she is perfect. She likes drawing very much and she is really good at sketching cartoon characters. Macy also happens to be good at writing too. Cindy, on the other hand, is amazing in English. She often gets full marks in her English tests. She likes drawing too but is not into colouring her artwork. Cindy is a prefect too and is part of a sports team.

Macy, Cindy and I always play together during recess. We always chat together because all three of us are quite talkative. We also work on our homework together. When I do not know what to do with my English homework, Cindy helps me out. When Cindy and Macy are feeling lost when doing Chinese homework, I help them out!

One of the most unforgettable memories I have with them was the one that happened in PE class. Macy, Cindy and I were playing volleyball together and the ball nearby hit my PE teacher. He was quite angry at us and we felt scared. At that moment of us being scared, I knew I wanted to be friends with them forever. I will make sure to keep their phone numbers so we can always stay in touch and be great friends as long as we live.

ALL ABOUT CHLOE & ANGEL

By 5E Vincy Chan Wun Chun

I would like to talk about my good friends, Chloe and Angel. Chloe is my classmate, while Angel happens to be the class monitress of Class 5D. Angel is good at Mathematics and General Studies. She is beautiful, has big eyes and always wears a ponytail. She is very funny.

Chloe is the youngest in her family. She has one brother and one sister. She loves playing the piano and sleeping. She helps out teachers as an English Ambassador and she also teaches kids how to speak English. She's good at English and Music.

The three of us usually play computer games and talk about homework together after school. Angel teaches us Mathematics and General Studies, while Chloe helps out with English homework and Music homework. At weekends, we play computer games together such as Mario and Rilakkuma.

Once, Chloe invited us to play new computer games at my clubhouse. Both Angel and I did not know how to play Chloe's new game. Chloe taught us how to play it and we felt joyful afterwards. I hope we can remain good friends even as we get older.

ALL ABOUT CHLOE & SAM

By 5E Jerry Siu Chun Ming

I would like to talk about my two good friends, Chloe and Sam. They are my classmates. Chloe is a prefect with short hair and she also happens to be the tallest in our class. She is a pretty and clever girl. She is good at English and solving the Rubik's Cube. She likes to play with it since she finds it interesting because of that she made it into a hobby. She also plays the piano too! She wants to improve her skills to learn difficult high-level piano pieces.

Sam is a handsome and diligent boy. He is good at football and Mathematics. His diligence is at full display as he trains very hard to improve his football skills every day. Because of the hard work he puts in a lot, he often wins in football competitions.

The three of us usually do homework and play badminton together. Chloe teaches us English homework, while Sam coaches us in Mathematics and General Studies homework.

Once, Chloe invited us to visit her home to play the piano before going to the playground to play badminton. Both Sam and I don't know how to play the piano. As an experienced player, Chloe taught us how to play basic piano chords patiently. We managed to get by with what little we learned. I love my friends, Chloe and Sam. I hope we can remain good friends even as we get older.

ALL ABOUT TITI & JERRY

By 5E Chloe Choi Cheuk Yee

I have two good friends. They are Titi and Jerry. Titi is a very intelligent and honest girl. She is very sincere and polite. I can say the same for Jerry. He is a smart boy, able to help us in every subject. Both of my friends are willing to help anyone.

Titi loves studying. You will always see her studying or revising through our books after class. She also loves doing homework. Before studying in her own time, she does her homework. After finishing her homework, she watches online videos to keep herself from feeling bored.

Jerry likes playing the piano. He has been playing it since he was three! He loves playing the musical instrument in his free time. Another hobby of his is singing. Every Now and then, you will hear him humming or singing a song. He is very lucky to have such a wonderful talent. Hope that he will not let it go to waste.

Titi is good at lots of things, but she's excellent at Mathematics. For many times in a row, she got full marks in her Maths exams. She is also quite good at writing in English and Chinese. She has received countless awards for what she wrote.

As I mentioned with Jerry earlier, he is good at singing and playing the piano. He is also very good at Chinese Storytelling and he has participated in Speaking Competitions.

I always chat with both of my friends, whether it is in person or online. Whether we are doing homework, or studying, we chat about many things and even argue about popular topics like "Which came first? The chicken or the egg?" "How did people communicate before language was created" and so on.

I once went with them to a birthday party of one of our classmates. There were games, food and even a private playground. I tripped, fell to the ground, and started bleeding badly. Luckily, Jerry had a band-aid with him and Titi consoled me. Even though it was not the happiest of memories, it is surely one of the memories I have with my friends that I am quite fond of.

A Biographical Essay on Taylor Swift

By 6A Soprina Wong Tin Wing

Have you ever seen a concert starring Taylor Swift? She is an incredible American singer and songwriter known internationally. Taylor Swift was born on December 13, 1989, in America. In 2005, she achieved prominence as a country pop singer with her first album!

Her rise to international fame started when she dropped singles for fans and new listeners to listen to. I'm sure you've heard of some of them. With hits like 'Teardrops on my Guitar', 'Love Story', and 'You Belong With Me', it is no wonder she became quite popular with girls around the world.

In 2019, she became one of the world's best-selling musicians. Her albums have sold over 200 million copies. She also became the most streamed female artist on Spotify and Apple Music that year as well!

Today, Taylor Swift is one of the most influential pop stars of all time. Currently, she constantly fills up stadiums with at least 96,000 people watching her perform live. Now that is some star power!

The Tales Times

By 6D Jovie Lee Tsz Ching

6th May, 2018

A Boy Lied and Lost His Family's Sheep

It was yesterday afternoon that a boy named Jimmy led all of his family's sheep to a nearby hill to feed them. Jimmy was feeling bored and decided to play a trick on the villagers by lying to them. Jimmy shouted, "HELP! There is a wolf eating my sheep! HELP!"

The villagers ran up to the hill but found out that the excited Jimmy was not telling them the truth. The villagers expressed their anger to him and left. After a short while, a real wolf came and started eating Jimmy's sheep.

Jimmy felt scared and screamed for help. Unfortunately for him, nobody came since they did not trust him. Jimmy went home without the sheep he started the day with and got scolded by his parents. His parents told us, "I can't believe that Jimmy did this! We're so disappointed in him."

We here at The Tales Times sure hope Jimmy won't lie again next time!

TALES TIME: JACK AND THE BEANSTALK

By 6A Chloe Chan Tsz Ching

A boy named Jack got some magic beans in exchange for a cow. With the beans, he managed to grow a big beanstalk that reached up to the sky. Then, he climbed up the beanstalk and went up in the clouds. Inside the clouds, there was a beautiful castle. He heard a loud booming voice as he went inside it. "FEE, FI, FO, FUM!" was what he heard.

He explored around the castle and found a beautiful, golden harp. Jack wanted it, so he decided to take the harp for himself. As he climbed down the beanstalk, he found out who the harp and booming voice belonged to. It was a giant! The giant chased after him by climbing the beanstalk down. Jack's mother saw this and took out an axe. She chopped down the beanstalk the moment Jack reached her. The giant fell down from the sky and crashed into the ground. Nobody ever saw the big creature again from that day on.

Visiting a Castle

(as Jack from Jack and the Beanstalk)

By 6C Sam Wong Siu Shek

I was chilling at home. I felt hungry. I asked my mom for food, but it turned out there was not any food at home at all. Mom suggested that I put on my big boy pants and go to the market to sell our old cow. I got the cow out of its hit and went off with it.

As I made my way to the market, I met a sketchy-looking man. He said to me, "I will give you these magic beans in exchange for the cow." My peanut-sized brain was stupid enough to accept the trade. I took the beans to my mom. When my mom saw the beans, she got enraged and yelled at me. "You're a disappointment," she screamed as she grabbed the beans and threw them out of the window.

The next day, I woke up and saw a huge beanstalk just outside the house. I decided to climb the beanstalk without considering the danger or consequences. I climbed and climbed until I finally reached the top. I saw a huge castle and went inside it. I then heard loud footsteps. It belonged to a giant! The giant saw me and I ran as fast as the wind. I successfully escaped and never climbed the beanstalk again.

Newspaper Article

A Giant Beanstalk Grows in a Poor Village!

By 6D Jayden Ho Cheuk Lai

Yesterday morning, a giant beanstalk appeared in a poor village. A boy named Jack was the first person who saw it. He climbed on it and discovered that it reached way up in the clouds. It was in the clouds that he found a beautiful castle.

"I climbed really hard," Jack explained to us. "When I reached the top, I saw a beautiful castle. I went inside it and I saw a giant!"

This giant, as it turned out, was really kind. It helped the poor villagers out. After hearing that the castle's resident was quite nice, other villagers and tourists came to see the beanstalk and this brought a lot of business to the once-poor village.

J.K Rowling: Biographical Essay

By 6D Anna Wang Yik Nam

Have you ever read the stories of Harry Potter written by J.K. Rowling? Fun fact, she wrote her first book at the age of six! She is one of the most successful writers of all time!

The idea of Harry Potter came to her when she was travelling to London by train in 1990. She plotted out the story in that train ride and wrote about Harry Potter since then. She published her first entry into the series, Harry Potter and the Philosopher's Stone, in the UK in the year 1997.

The stories are very popular. The Harry Potter books have now sold over 600 million copies worldwide. They've also been translated into 85 languages! Later in her career, she also started to write some fairy tales like 'The Ickabog' for children.

Now, she lives with her family in Scotland. If you want to be as famous as J.K Rowling, you need to work hard and improve on your writing from now on.
